Interviewer:

Jon, *Congratulations* on another great addition to the Access Family of Companies **Access Mobility Vans!**

All of your companies offer products designed to enhance and increase mobility and comfort for your customers. Your newest offering takes the next logical step by offering Eldorado and other premium wheelchair van products.

After over 20 years Jon what is the secret to your success serving all of your customers with so many diverse products and services so well?

Jon Tevz:

Thanks for the kind words. But you know like many hard working business owners, I am dedicated to my customers. My goal in building all of my companies and product lines is to make life easier at home and now on the road with the newest venture **Access Mobility Vans**. Really its all about enhancing mobility in any way we can for our customers. But to really answer your question, my real secret to success is the team of people I have surrounded myself with from employees to vendors. We carry the best product lines and have a team of caring professionals from managers, installation technicians to administrative people. They all are dedicated to solving customer's needs and to make them feel as special as they are to us all.

Interviewer:

www.accessmyride.com is your newest website. But how can customers find out more information about getting into a new wheelchair van in the Milwaukee, Madison or Chicago areas?

Jon Tevz:

Great question, the easiest way is to call us directly in **Wisconsin** at

1-844-945-4387 or in **Illinois 1-844-455-4387**. Or if after hours, go directly to our website at www.accessmyride.com and send us an email

directly from our website and we will call you first thing in the morning.

Interviewer:

Jon, these new custom wheelchair vans from Eldorado for example are really great looking with very fair pricing and with all the expected bells and whistles. But what about financing any help with that and do you accept trade ins?

Jon Tevz:

Our first goal is to always have a conversation and really do our best to listen carefully to what our customer's needs are. We accomplish this on our first call and then invite our new customer to our place for a test drive. We will happily set up a good time that fits your busy schedule to come on over and discuss all of the details and look at the wheelchair vans in person. We can determine what kind of wheelchair van or even a wheelchair truck as we carry those too is best for your needs.

We do accept trade ins and will go over all possible avenues and options for financing and payment.

We will make it all easy as possible on you. If need be we can even bring the new van directly to you. We know you have places to go, we will get you there in style and with a caring support staff for on-going maintenance and customer service at your disposal daily.

Interviewer:

Jon, many of your potential customers are military vets from every branch of service. Do you offer any special benefits to our American hero's?

Jon Tevz:

Yes we do!

We proudly welcome our U.S. military vets. We have created a special page on our website that you can go to directly from this link:

<http://www.accessmyride.com/military-vets/>

There they will find a lot of very helpful information and benefits for our valued vets. We will go out of our way to help any of our customers but especially our military vets.

Interviewer:

Jon, **Access Mobility Vans** is a very impressive and much needed to increase mobility for your customers in Wisconsin and Illinois and all surrounding areas. With your strong line of products and amazing team of professionals, it looks like you have really created a "one stop shopping" umbrella of companies at The Access Family of Companies. Congratulations on your new venture and the best of luck to you and your team.

Jon Tevz:

Thank you very much, as always I am proud of what I do on behalf of my family at home and at work and our valued customers. With the help of the best team of people in the business I am lucky to have, we all look forward to the next 20 + years of serving our customers in all surrounding areas for wheelchair vans, Wheelchair Ramps, Stairlifts, Home Elevators and all medical products.
